Reading, head of the Anglo-French commission last night.

James A. Patten, multi-millionaire and grain trader, announced today that he would subscribe to the Anglo-French loan.

"I am convinced that the success of the loan is essential to the maintenance of a stable rate of exchange," said Mr. Patten "and this will enable exporters to handle grain upon a closer margin of profit and correspondingly improve the prices paid to our farmers."

ONLY MODERATE ADVANCE IN FOREIGN EXCHANGE

New York, Sept. 29.—Foreign exchange advanced only moderately at the opening today as a result of the official announcement of the terms of the Anglo-French loan. Demand sterling opened at \$4.72 1/2, an overnight gain of 1/2 of a cent.

DWINDLING ARMY REPEATS MARCH OF FORTY YEARS AGO

(Continued from Page One.)

carried the same musket he saw throughout the war.

The parades were loudly applauded and they joined in the cheering at the north end of the treasury where a big banner stretched across the street bore Lincoln's communiqué to the soldier. "There is one debt we owe to the defenders of the union."

The banner was a duplicate of one that hung across Pennsylvania avenue in the same location during the review of '65.

Several sections of the veterans gave their battle cries and sang their battle songs as they passed before the president. Others gave him enthusiastic cheers. One section sang "Marching Through Georgia" as they stampeded along.

Seated near the president was Chief Justice White, himself a Confederate veteran. Sir Cecil Spring Rice, the British ambassador, and J. J. Justerard, the French ambassador, were also near the president.

Revolutionary Movement Has Organization

Army Men Receive Evidence of Systematic Operation by Mexicans Who Would Annex Texas.

(By Evening Herald Leased Wire)

Brownsville, Tex., Sept. 29.—A party in four automobiles was fired on twice near Mercedes last night. Captain Garrison McGahey of the Twenty-sixth Infantry at Mercedes sent out a detachment to investigate the shooting but they found no clues.

Evidence that Mexicans who are said to be planning to make an independent republic of south Texas have today a more complete organization than when the outbreaks began two months ago came to the notice of army officers here today. The Mexican spy service is said to have caused American troops considerable trouble especially in the cutting of army telephone lines just before raids, and as a result requests have been made for five or six sets of field wireless outfitts.

Colonel L. Buijard, in command of the infantry patrol work, and Col. A. P. Blackmon, commanding the cavalry patrol, have issued orders tending to concentrate larger bodies of troops than heretofore to points whence reinforcements can be distributed easily. A log of about 296 rounds of ammunition, dropped by the Mexicans in the Progress fight, with noses of each bullet crown filed so as to make them "dum dum" missiles, has been delivered to Colonel Buijard.

Major Edward Anderson of the Twelfth cavalry, whose troops are doing most of the patrol work in the Progress section, where the presence of 500 Mexicans on the Mexican side of the river has been reported, has arranged for every available river point to be visited by cavalrymen eight times each 24 hours, in order to hamper the work of Mexican spies.
